REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record does not specifically disclose or remotely suggest

With regard to independent claims 1 and 9:

A system for collecting **SNMP bandwidth data** comprising:

simultaneously collecting a plurality of data samples from a **port** on said network device by a plurality of collecting servers, said plurality of collecting servers comprising a **master server and at least one slave server**;

performing data computation activities including:

generating a clean data file utilizing said master text file and said slave text file; and

computing delta values for data samples in said clean text file;

wherein said data collection system transfers control of said data computation activities to said slave server upon a failure detected at said master server.

With regard to independent claim 17:

A system for collecting **SNMP bandwidth data** comprising:

a plurality of collecting servers comprising:

a master server in communication with said network device, said master server storing a master text file, a clean data file, and a lock file; and

Art Unit: 2141

at least one slave server in communication with said network device, said at least one **slave server storing a slave text file and a lock file;**

a database in communication with said master server and said at least one slave server, said database storing:

a control table storing an identifier of said master server and an update of a most recent hourly run; and

computed delta values for said clean data file;

wherein said master server and said at least one slave server perform **redundant periodic data sampling of at least one port** for said network device.

2. These limitations, in conjunction with the other limitations in the independent claims, are not specifically disclosed or remotely suggested in the prior art of record.

A review of claims 1 – 24, in view of the Examiner's arguments above, indicates that claims 1 – 24 are allowable over the prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
